Year in Review

This Financial Year 2019-20 was a mixed year for the Authority in terms of its performance and achievements.

As the year witnessed the outbreak of covid-19 pandemic, it has, not surprisingly, affected the deliverables of the Authority. In particular, construction and maintenance work were affected due to shortage of labor and material. However, despite the pandemic, the Authority has collected Nu. 420,024,771.15/- (Four hundred Twenty million Twenty Four thousand Seven hundred and Seventy One) in revenue. Bus terminal at Thimphu, Phuentsholing, Gelephu, Samdrupjongkhar and Mongar regional offices has been renovated, 20 additional passenger transport service routes were introduced. The authority also approved Bhutan Airport Shuttle Bus Services (BASS) and Premium Passenger bus service between Thimphu-Paro and Thimphu-Phuentsholing respectively.

The Authority has procured 5 new vehicles replacing the aging pool vehicle fleets which were over decade-and-half old. Further, budget for new uniforms for all eligible staff were secured with Uniform Code and Conduct. This ensures annual budgetary space for annual issuance of the uniform to staff which will foster a sense of belonging among the staff and reinforce professionalism while delivering the Authority's statutory mandates.

Pemba Wangchuk
Director General

Chapter 1

Introduction

The Road Safety & Transport Authority has 5 Regional Offices and 22 Base Offices in 19 dzongkhags.

This is from knitr

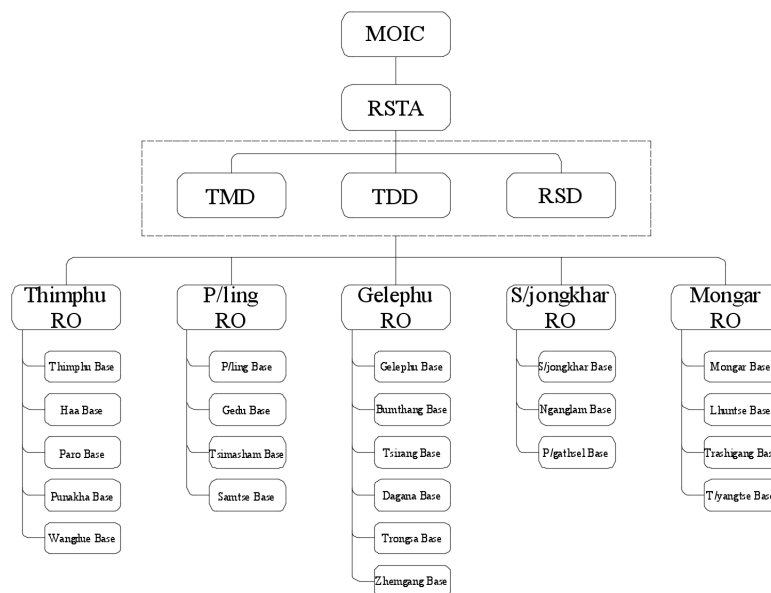

Figure 1.1: RSTA Organogram

You can label chapter and section titles using `{#label}` after them, e.g., we

can reference Chapter 1. If you do not manually label them, there will be automatic labels anyway, e.g., Chapter 3.

Figures and tables with captions will be placed in `figure` and `table` environments, respectively.

```
par(mar = c(4, 4, .1, .1))  
plot(pressure, type = 'b', pch = 19)
```

Figure 1.2: Here is a nice figure!

Reference a figure by its code chunk label with the `fig:` prefix, e.g., see Figure 1.2. Similarly, you can reference tables generated from `knitr::kable()`, e.g., see Table 1.1.

```
knitr::kable(  
  head(iris, 20), caption = 'Here is a nice table!',  
  booktabs = TRUE  
)
```

Table 1.1: Here is a nice table!

Sepal.Length	Sepal.Width	Petal.Length	Petal.Width	Species
5.1	3.5	1.4	0.2	setosa
4.9	3.0	1.4	0.2	setosa
4.7	3.2	1.3	0.2	setosa
4.6	3.1	1.5	0.2	setosa
5.0	3.6	1.4	0.2	setosa
5.4	3.9	1.7	0.4	setosa
4.6	3.4	1.4	0.3	setosa
5.0	3.4	1.5	0.2	setosa
4.4	2.9	1.4	0.2	setosa
4.9	3.1	1.5	0.1	setosa
5.4	3.7	1.5	0.2	setosa
4.8	3.4	1.6	0.2	setosa
4.8	3.0	1.4	0.1	setosa
4.3	3.0	1.1	0.1	setosa
5.8	4.0	1.2	0.2	setosa
5.7	4.4	1.5	0.4	setosa
5.4	3.9	1.3	0.4	setosa
5.1	3.5	1.4	0.3	setosa
5.7	3.8	1.7	0.3	setosa
5.1	3.8	1.5	0.3	setosa

Chapter 2

Literature

Here is a review of existing methods.

Chapter 3

Methods

We describe our methods in this chapter.

Chapter 4

Applications

Some *significant* applications are demonstrated in this chapter.

4.1 Example one

4.2 Example two

Chapter 5

Final Words

We have finished a nice book.
